What Do We Offer to Fresh Graduate?

- We offer a perfect platform for personal and professional development. There is plenty of room for exploring, learning, getting exposed to different functions.
- Throughout the time, you will first be provided with technical training to get you equipped with the overall understanding of our industry-leading products, solutions and business operations.
- Ultimately, you will be immersed in our working culture, ready to take on rotational assignments in different cross-functional programs, driving real value to our various business units.
- The length and frequency of rotation are greatly dependent on your attitude and mindset, learning ability, execution and overall performance! Do not worry, your day-to-day work will allow you to learn new things every day. Our team will ensure a smooth transition, in which regular feedback and on-the-job coaching will be provided.
