ICT Mahidol together with DEPA organized an online training, “Penetration Testing and System Hardening, Batch 4”

During 30 – 31 October 2021 – Dr. Pattanasak Mongkolwat, Dean of the Faculty of Information and Communication Technology, Mahidol University (ICT Mahidol), together with Digital Economy Promotion Agency (DEPA), organized an online training, “Penetration Testing and System Hardening, Batch 4” via Webex Meetings. At the beginning of the training, Dr. Kasitorn Phuparadai, Deputy Director-General of the Digital Economy Promotion Agency gave a warm welcome speech to all 79 participants.

The hands-on and theoretical training, “Penetration Testing and System Hardening” is the second collaborative project between the Digital Economy Promotion Agency (DEPA) and the Faculty of Information and Communication Technology. The training focused on providing all participants with knowledge and understanding of the principles and methods for testing computer systems penetration, and how to test the system security properly and safely.

The guest speakers from ICT Mahidol included:

1. Dr. Ittipon Rassameeroj (Head of the Project)
2. Assoc. Prof. Dr. Vasaka Visoottiviseth
3. Dr. Assadarat Khurat
4. Dr. Songpon Teerakanok
