ICT Mahidol served as representative of Mahidol University to present its work, “Data-Driven Dashboard for MUX System” in “Hackathon Showcase Day”

On 30 October 2021 – the Faculty of Information and Communication Technology, Mahidol University (ICT Mahidol) served as representative of Mahidol University to present its work, “Data-Driven Dashboard for MUX System” in “Hackathon Showcase Day” under the project, “University Data Driven Idea Challenge for Digital Transformation in Higher Education of Thailand” via Microsoft Teams. The work “Data-Driven Dashboard for MUX System” has been developed by Mr. Patipat Chewprecha, Mr. Prach Chaisiri, and Miss Woramon Chareonsuk, Computer Technical Officers under supervision of Dr. Siripen Pongpaichet, Assistant Dean of the Information Systems. Furthermore, ICT Mahidol received the special award "TOP for business expansion" for this work while competing against 6 other works from other 6 universities across the country.

ICT Mahidol has developed the "Data-Driven Dashboard for MUX System" by using the concept of "Data Driven" in Microsoft Power Platform, such as Power BI, to plan strategies in creating the University's online classes, materials, and sources for its students and staff, with the goal of making Mahidol University the leading University in Thailand that provides broad and varied online sources. In addition, to analyze and create this project, ICT Mahidol obtained

information from the MUx Mahidol University Extension System from the Division of Academic Affairs, Mahidol University.
