ICT Mahidol instructor won “Mahidol University Researcher of the Year 2023: Rising Researcher in Science and Technology”

The Faculty of Information and Communication Technology, Mahidol University (ICT Mahidol), extends its congratulations to Assoc. Prof. Dr. Worapan Kusakunniran, Instructor and Head of Machine Vision and Information Transfer Lab (MVIT), on receiving the “Mahidol University Researcher of the Year 2023: Rising Researcher in Science and Technology” award, presented by Prof. Banchong Mahaisavariya, President of Mahidol University during the “54 years of the royally bestowed name, 135 years of Mahidol University Establishment Ceremony” on March 2nd, 2023. Additionally, Dr. Pattanasak Mongkolwat, ICT Mahidol Dean, presented him with a congratulatory bouquet at Hall of Fame, the Faculty of ICT, Mahidol University, Salaya.

The objective of the "Mahidol University Researchers of the Year" was to recognize and acknowledge the dedication of professors and researchers who consistently engage in research that is beneficial to the academic community. Their research has positively impacted the country and society, serving as an exemplary model for the new generation of researchers.

This award is newly introduced this year by Mahidol University, and it has been awarded to a total of 11 individuals across all 7 award categories: Lifetime Achievement, High Impact Researcher in Health Science, High Impact Researcher in Science and Technology, High Impact Researcher in Social Sciences, Humanities and Arts, Rising Researcher in Health Science, Rising Researcher in Science and Technology, Rising Researcher in Social Sciences, as well as Humanities and Arts.
