

## Seminar / Training News

ICT Mahidol, together with TDGA, organized a training on “Cybersecurity for Technologist, Batch 3”

During 27 – 31 March 2023 – the Faculty of Information and Communication Technology, Mahidol University (ICT Mahidol), together with Thailand Digital Government Academy (TDGA), organized a training on “Cybersecurity for Technologist, Batch 3”. On this occasion, Assoc. Prof. Dr. Sudsanguan Ngamsuriyaroj, ICT Instructor, as well as Lect. Pagaporn Pongsart, Deputy Dean for Infrastructure and Technology, served as keynote speakers who conveyed knowledge about Security Overview including Laws and Regulation, Identify, Detection, Recovery, and Incident Drill to technologists in a Computer Laboratory, 25<sup>th</sup> floor, MU Building, the Faculty of ICT, Mahidol University.

The Faculty of ICT, Mahidol University, has continuously organized the "Cybersecurity for Technologist" training course since December 2022. This course aims to encourage participants to realize their legal Cybersecurity roles and responsibilities, to provide them with

knowledge and understanding of the NIST Cybersecurity Framework guidelines for effectively managing security threats and digital technology risks, and to enable them to apply the acquired knowledge in dealing with digital threats.
