Congratulations to 2 teams of ICT Mahidol students who have advanced to the preliminary round of the “Innovation for Campus Sustainability 2023” competition

The Faculty of Information and Communication Technology, Mahidol University (ICT Mahidol), would like to congratulate 2 teams of B.Sc. in Information and Communication Technology (ICT International Program) students who have advanced to the preliminary round, and received 15,000 baht from the “Innovation for Campus Sustainability 2023” competition on April 19, 2023.

The ICT student teams have advanced to the preliminary round of the competition with the following projects:

- **"EcoEats" from Food Forward Force Team:** The team members include Miss Pruksa Dankittipong, and Mr. Perakorn Nimitkul, 3rd year ICT International Program

students, under supervision of Dr. Jidapa Krairangka, Assistant Dean for Academic and Curriculum Development

- **“WHEEL GO: ACCESSIBILITY ASSISTANCE APPLICATION FOR PERSONS WITH MOBILITY IMPAIRMENTS IN WHEELCHAIR” from NAKAMA Team:** The team members include Mr. Thanapat Jumnongrat, Mr. Thanaboon Sapmontree, and Mr. Supakarn Laorattanakul, 4th year ICT International Program students, under supervision of Dr. Siripen Pongpachet, Assistant Dean for Information and Systems

The "Innovation for Campus Sustainability 2023" competition was organized by the Division of Physical Systems and Environment, Mahidol University, with the objective of providing an opportunity for Mahidol University students who are interested in creating new innovations to present their ideas for sustainable development to benefit Thai society. The final round of the competition will be held on July 5, 2023.”
